PREFACE

In pursuance of National Education Policy (1998-2010), the Curriculum Wing of the Federal Ministry of Education has begun a process of curriculum reform to improve the quality of education through curriculum revision and textbook development (Preface, National Curriculum documents 2000 and 2002).

AKU-EB was founded in August 2003 with the same aim of improving the quality of education nationwide. As befits an examination board it seeks to reinforce the National Curriculum revision through the development of appropriate examinations for the Secondary School Certificate (SSC) and Higher Secondary School Certificate (HSSC) based on the latest National Curriculum and subject syllabus guidance.

AKU-EB has a mandate by Ordinance CXIV of 2002 to offer such examination services to English and Urdu medium candidates for SSC and HSSC from private schools anywhere in Pakistan or abroad, and from government schools with the relevant permissions. It has been accorded this mandate to introduce a choice of examination and associated educational approach for schools, thus fulfilling a key objective of the National Curriculum of Pakistan: "Autonomy will be given to the Examination Boards and Research and Development cells will be established in each Board to improve the system" (ibid. para. 6.5.3 (ii)).

AKU-EB is committed to creating continuity of educational experience and the best possible opportunities for its students. In consequence it offered HSSC for the first time in September, 2007 to coincide with the arrival of its first SSC students in college or higher secondary school. Needless to say this is not an exclusive offer. Private candidates and students joining AKU-EB affiliated schools and colleges for HSSC Part 1 are eligible to register as AKU-EB candidates even though they have not hitherto been associated with AKU-EB.

This examination syllabus exemplifies AKU-EB's commitment to national educational goals.

- It is in large part a reproduction, with some elaboration, of the Class IX and X National Curriculum of the subject.
- It makes the National Curriculum freely available to the general public.
- The syllabus recommends a range of suitable textbooks already in print for student purchase and additional texts for the school library.
- It identifies areas where teachers should work together to generate classroom activities and materials for their students as a step towards the introduction of multiple textbooks, another of the Ministry of Education's policy provisions for the improvement of secondary education (ibid. para. 6.3.4).

This examination syllabus brings together all those cognitive outcomes of the National Curriculum statement which can be reliably and validly assessed. While the focus is on the cognitive domain, particular emphasis is given to the application of knowledge and understanding, a fundamental activity in fostering "attitudes befitting useful and peaceful citizens and the skills for and commitment to lifelong learning which is the cornerstone of national economic development" (Preface to National Curriculum documents 2000 and 2002).

To achieve this end AKU-EB has brought together university academics, teacher trainers, writers of learning materials and above all, experienced teachers, in regular workshops and subject panel meetings.

AKU-EB provides copies of the examination syllabus to subject teachers in affiliated schools to help them in planning their teaching. It is the syllabus, not the prescribed text book which is the basis of AKU-EB examinations. In addition, the AKU-EB examination syllabus can be used to identify the training needs of subject teachers and to develop learning support materials for students. Involving classroom teachers in these activities is an important part of the AKU-EB strategy for improving the quality of learning in schools.

The Curriculum Wing of the Federal Ministry of Education has recently released new subject specifications and schemes of study to take effect in September, 2008. These documents are a major step forward towards a standards-related curriculum and have been welcomed by AKU-EB. Our current SSC syllabuses have been revised to ensure conformity with the new National Curriculum 2006.

We stand committed to all students entering the SSC course as well as those who have recently embarked upon the HSSC course in facilitating their learning outcome. Our examination syllabus document ensures all possible support.

Dr. Thomas Christie

Director,

Aga Khan University Examination Board

July 2009

1. Aims/Objectives of the National Curriculum (2002)¹

Aims

- 1. To analyse the factors responsible for the rise and fall of Muslims.
- 2. To understand the political status of Muslims during British rule in India.
- 3. To familiarize the students with the revolutionary movement of Muslims in the subcontinent.
- 4. To enable the students to draw inspiration from the ideology of Pakistan and Islam.

General Objectives

- 1. To develop a sense of gratitude to Almighty Allah for blessing us with Pakistan.
- 2. To analyse the socio-political development in historical perspective during 1947-2001.
- 3. To evaluate the Islamization effort by various governments in the perspective of an Islamic Ideology State.
- 4. To conclude the lessons learnt from history.
- 5. To inculcate the qualities of *khudi*, self-reliance, tolerance, research, sacrifice, jihad, martyrdom, modesty and the behaviour pattern of national character.
- 6. To acquaint with the international role of Pakistan with special emphasis on the Islamic World.

Latest Revision June 2012

¹ Government of Pakistan (2002), *National Curriculum; History of Pakistan, Classes IX-X*, Islamabad, Ministry of Education (Curriculum Wing).

2. Rationale of the AKU-EB Examination Syllabus

2.1 General Rationale

- 2.1.1 In 2007, the Curriculum Wing of the Federal Ministry of Education (MoE) issued a revised part-wise Scheme of Studies. All subjects are to be taught and examined in both classes IX and X. It is therefore important for teachers, students, parents and other stakeholders to know:
 - (a) that the AKU-EB Scheme of Studies for its SSC examination (Annex A) derives directly from the 2007 Ministry of Education Scheme of Studies;
 - (b) which topics will be examined in Class IX and in Class X;
 - (c) at which cognitive level or levels (Knowledge, Understanding, Application and other higher order skills) the topics and sub-topics will be taught and examined;
- 2.1.2 This AKU-EB examination syllabus addresses these concerns. Without such guidance teachers and students have little option other than following a single textbook to prepare for an external examination. The result is a culture of rote memorization as the preferred method of examination preparation. The pedagogically desirable objectives of the National Curriculum which encourage "observation, creativity and other higher order thinking skills" are generally ignored. AKU-EB recommends that teachers and students use multiple teaching-learning resources for achieving the specific objectives of the National Curriculum reproduced in the AKU-EB examination syllabuses.
- 2.1.3 The AKU-EB examination syllabuses use a uniform layout for all subjects to make them easier for teachers to follow. Blank sheets are provided in each syllabus for writing notes on potential lesson plans. It is expected that this arrangement will also be found helpful by teachers in developing classroom assessments as well as by question setters preparing material for the AKU-EB external examinations. The AKU-EB aims to enhance the quality of education through improved classroom practices and improved examinations.
- 2.1.4 The Student Learning Outcomes (SLOs) in Section 3 start with command words such as list, describe, relate, explain, etc. The purpose of the command words is to direct the attention of teachers and students to specific tasks that candidates following the AKU-EB examination syllabuses are expected to undertake in the course of their subject studies. The examination questions will be framed using the same command words or the connotation of the command words to elicit evidence of these competencies in candidates' responses. The definitions of command words used in this syllabus are given in Section 7. It is hoped that teachers will find these definitions useful in planning their lessons and classroom assessments.

- 2.1.5 The AKU-EB has classified SLOs under the three cognitive levels Knowledge (K), Understanding (U) and Application of knowledge and skills (A) in order to derive multiple choice questions and constructed response questions on a rational basis from the subject syllabuses ensuring that the intentions of the National Curriculum should be met in full. The weighting of marks to the Multiple Choice and Constructed Response Papers is also derived from the SLOs, command words and cognitive levels. In effect the SLOs derived from the National Curriculum determine the structure of the AKU-EB subject examination set out in Section 4 and 5.
- 2.1.6 Some topics from the National Curriculum have been elaborated and enriched for better understanding of the subject and/or to better meet the needs of students in the twenty-first century. These additional topics have been italicized in Section 3 of this syllabus.

2.2 Specific Rationale of the AKU-EB History of Pakistan Examination Syllabus

- 2.2.1 History is part and parcel of life and the study of history has as its major thrust on improvement of the quality of life and welfare of human beings. This discipline enhances a rational approach towards behaviour and daily life.
- 2.2.2 In response to shifting global trends and priorities in social development, there is a continuous need to update the syllabus for teaching history at the secondary level. With the need to remain abreast of current developments in mind, AKU-EB, within the ambit of the National Curriculum, has further augmented the History syllabus. Some concepts and contents are restructured and enriched to better meet the needs of our students and to better serve national development.

3. Topics and Student Learning Outcomes of the Examination Syllabus

Part I (Class IX)

Topic		Student Learning Outcomes		Cognitive Level ²		evel ²
				K	U	A
1.	1. Basis of History* Candidates should be able to:					
	1.1 Definition of History	1.1.2	describe history as a social science with reference to cause and effect, reason and consequence; discuss the usefulness of history in understanding the development of society with reference to the evaluation of historical sources and the identification of possible bias;		*	
	1.2 Development of History as a Discipline	1.2.1	describe the historical evolution of the discipline of history;		*	
	1.3 Difference between Primary and Secondary Sources of History	1.3.2 a	explain the difference between primary and secondary sources of history; analyze the importance of primary and secondary sources; enlist the types of primary and secondary sources and their use.	*	*	*

² K = Knowledge, U = Understanding, A= Application (for explanation see Section 8: Definition of command words used in Student Learning Outcomes and in Examination Questions).

^{*} Rephrased

NOTES

					K	U	A
2.	2. Art of Writing History in Relation to Hadith		Candid	lates should be able to:			
	2.1	Renowned Muslim	2.1.1	discuss the salient features of writing about History in relation to Hadith;		*	
		Historians	2.1.2	discuss the contribution made by Imam Malik;		*	
			2.1.3	discuss the contribution made by Muhammad Jarival Tabri;		*	
			2.1.4	discuss the contribution made by Allama Ibn-e-Khaldoon;		*	
			2.1.5	compare the key features of Al-Beruni and Abu Toger Tabri's contributions;		*	
			2.1.6	draw lessons from renowned historians about the importance of			*
				knowledge, wisdom and learning towards human society;			
	2.2	Other Well-known Historians	2.2.1	describe the contributions of Ziauddin Burney, Shibli Nomani and Syed Amir Ali.		*	
3.	Civi	lizations of the Past	Candid	lates should be able to:			
	3.1	Definition of Culture	3.1.1	define the terms culture and civilization;	*		
		and Civilization	3.1.2	differentiate between culture and civilization;		*	
			3.1.3	explain the components of culture;		*

- 4.1 Tables 1 and 4 summarize the number and nature of SLOs in each topic in classes IX and X. The emphasis is on Knowledge and Understanding as compared to Application in History of Pakistan, SLOs under the domain of Understanding i.e. (45% and 49%) and (20% and 20%) respectively.
- 4.2 There will be two examinations, one at the end of Class IX and one at the end of Class X.

- 4.3 In each class, the theory paper will be in two parts: paper I and paper II. Both papers will be administrated within 3 hours.
- 4.4 Paper I theory will consist of 30 compulsory, multiple choice items. These questions will involve four response options.
- 4.5 Paper II theory will carry 45 marks and consist of a number of compulsory, structured questions and a number of extended response questions. Each extended response question will be presented in an either/or form.
- 4.6 All constructed response questions will be in a booklet which will also serve as an answer script.

5. Teaching-Learning Approaches and Classroom Activities

- 5.1 The study of history should promote the skills/qualities of creativity, curiosity, engagement with other points of view and a sympathetic understanding of earlier world views. The effort is always to understand why people acted as they did.
- 5.2 To achieve these outcomes the following strategies are recommended:
 - (a) active involvement of students should be encouraged by way of role play, small group discussion and debates
 - (b) use of pictures and illustrations should be an important part of the teaching methodology;
 - (c) students should be encouraged to research each topic for themselves, pooling ideas, information and opinion and trying to establish which sources are more trustworthy when conflicting information is discovered;
 - (d) newspapers should be scrutinized for evidence of bias with attempts to give historical explanations of these biases;
 - (e) preparation of charts and reading of maps should be encouraged;
 - (f) writing reports on visits to historical monuments.
- 5.3 The following teaching methods may be equally distributed across the working days or periods.
 - (a) field trips to historical sights
 - (b) discussions/question-answer sessions
 - (c) role playing
 - (d) simulation
 - (e) declamation/debates
 - (f) preparation of models, charts

7. Definition of Cognitive Levels and Command Words in the Student Learning Outcomes and in Examination Papers

7.1 Definition of Cognitive Levels (Knowledge, Understanding and Application)

Knowledge:

This requires knowing and remembering facts and figures, vocabulary and contexts, and the ability to recall key ideas, concepts, trends, sequences, categories, etc. It can be taught and evaluated through questions based on: who, when, where, what, list, define, describe, identify, label, tabulate, quote, name, state, etc.

Understanding:

This requires understanding information, grasping meaning, interpreting facts, comparing, contrasting, grouping, inferring causes/reasons, seeing patterns, organizing parts, making links, summarizing, solving, identifying motives, finding evidence, etc. It can be taught and evaluated through questions based on: why, how, show, demonstrate, paraphrase, interpret, summarize, explain, prove, identify the main idea/theme, predict, compare, differentiate, discuss, chart the course/direction, report, solve, etc.

Application:

This requires using information or concepts in new situations, solving problems, organizing information and ideas, using old ideas to create new ones, generalizing from given facts, analyzing relationships, relating knowledge from several areas, drawing conclusions, evaluating worth, etc. It can be taught and evaluated through questions based on: differentiate, analyze, show relationship, propose an alternative, prioritize, give reasons for, categorize, illustrate, corroborate, compare and contrast, create, design, formulate, integrate, rearrange, reconstruct/recreate, reorganize, predict consequences etc.

7.2 Definition of Command Words:

Knowledge

Define: Usually asks for a definition of terms. Only a formal

statement of an equivalent phrase is required. No examples need to be given. The answer need not be in the form of a complete

sentence.

Account for: Spells out a chronology and shows in what ways the event or

circumstance to be accounted for derives from or is dependent on earlier events or alternatively is a departure from expectation

attributable to the emergence of a new individual or idea.

Give an account

of:

Asks for a narrative or story and is judged on its chronological

accuracy.

Identify: Describe with specific examples of how a given term or concept is

applied in daily life.

List: Requires a number of points, generally each of one word,

with no elaboration. Where a given number of points are

specified this should not be exceeded.

State: Invites a statement of fact. No justification or explanation is

expected.

Understanding

Compare: List the main characteristics of two entities clearly identifying

similarities (and differences).

Describe: Is usually an invitation to show understanding of other times and

to enter into an empathic appreciation of different behavioural

norms and the reasons for them.

Differentiate/

Distinguish:

Identify those characteristics which are the defining features

of two concepts or phenomena.

Discuss: Requires candidates to give a critical account of the points

involved in the topic. There should be an introductory paragraph setting the scene, like points should be drawn together in paragraphs in the body of the text and lead to a conclusion

which follows reasonably from the central section.

Explain: Should include reference to individual motives and social

pressures and indicate how it came about that either the individual, a small group with a big idea or the wider society

shaped events.

Give examples

of:

Has the form of a list but it is usually expected that each example listed will have a sentence or two of explanation of why it can be said to be an example of the category required.

Relate

Describe how events depend upon, follow from or are part of a greater whole.

Application

Analyse:

Goes beyond the facts of the case to spell out the relationships between men, ideas and circumstances and in particular to differentiate cause from effects. A good answer will make it clear which relationships are matter of fact and which are conjecture or hypothesis, e.g. X was Y's son but whether he was a loving son we cannot be sure; both X and Y fought for independence but their private motives for doing so appear to have been very different.

Draw a sketch map:

A successful response has five attributes: the shape of the area is recognizable, the scale is given in sensible units, north is indicated, salient topographical features are symbolized and of course the relative positions of key locations are approximately correct.

Evaluate:

Is based on analysis but goes beyond analysis to reach a judgment of value or worth, e.g. "...as Mogul emperors go X was a good emperor because".

SSC Scheme of Studies³

AKU-EB as a national board offers SSC and HSSC qualifications for both English and Urdu medium schools. The revised SSC Scheme of Studies issued by the Curriculum Wing was implemented from September 2007. Accordingly, each SSC subject will be taught across both the classes IX and X. The Science and Humanities group subjects are offered at SSC level. The marks allocated to subjects in the revised National Scheme of Studies of September 2007 have been followed.

SSC I and II (Class IX and X) subjects on offer for examination

SSC Part-I (Class IX) Science Group

Cubicata		Marks	Medium	
Subjects	Theory	Practical	Total	Medium
English Compulsory-I	75	1	75	English
Urdu Compulsory-I OR				Urdu
Urdu Aasan ^a OR	75	-	75	Urdu
History and Geography of Pakistan-I b				English
Islamiyat-I OR Ethics-I ^c	*30	-	*30	English / Urdu
Pakistan Studies-I	*45	-	*45	English / Urdu
Mathematics-I	75	-	75	English / Urdu
Physics-I	65	10	75	English / Urdu
Chemistry-I	65	10	75	English / Urdu
Biology-I OR	65	10	75	English / Urdu
Computer Science-I	03	10	13	English
Total:	*495	30	*525	

SSC Part-II (Class X) Science Group

Cubicata		Marks	Madium	
Subjects	Theory	Practical	Total	Medium
English Compulsory-II	75	1	75	English
Urdu Compulsory-II OR				Urdu
Sindhi ^a OR	75	-	75	Sindhi
History and Geography of Pakistan-II ^b				English
Islamiyat-II OR Ethics-II ^c	*45	-	*45	English / Urdu
Pakistan Studies-II	*30	-	*30	English / Urdu
Mathematics-II	75	•	75	English / Urdu
Physics-II	65	10	75	English / Urdu
Chemistry-II	65	10	75	English / Urdu
Biology-II OR	65	10	75	English / Urdu
Computer Science-II	03	10	13	English
Total:	*495	30	*525	

- a. Candidates from the province of Sindh may appear in "Urdu Aasan" in SSC Part I and in "Sindhi" in Part II examination
- b. Foreign students may opt HISTORY and GEOGRAPHY OF PAKISTAN in lieu of Urdu Compulsory, subject to the Board's approval.
- c. For non-Muslim candidates only.
- * The above will be implemented in

SSC Part I 2013 Examinations and onwards SSC Part II 2014 Examinations and onwards

³ Government of Pakistan September 2007. Scheme of Studies for SSC and HSSC (Classes IX-XII). Islamabad: Ministry of Education, Curriculum Wing.
